

TMEM158 AlphaFold topology context

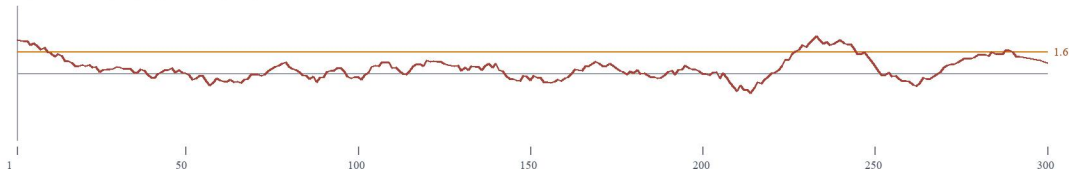

AlphaFold DB Q8WZ71 v6 with UniProt transmembrane features; structural rationale, not interaction proof

UniProt topology features

AlphaFold pLDDT by residue

Kyte-Doolittle hydropathy window (19 aa)

Residue position

Global pLDDT 56.66; low/very-low fraction 0.684. TM1 is interpretable; TM2 remains lower-confidence.
